

Content: This collective volume explores issues of economic and political governance in the European Monetary Union. Combining the perspectives of economics, law, political science and historical research, it provides an up-to-date analysis of the development of the Eurozone and assesses the prospects for the economic and political sustainability of the euro.

About the Authors: Francisco Torres (Universidade Católica Lisboa), Amy Verdun (University of Victoria, BC), Hubert Zimmermann (Cornell University).

„**Internationale Politische Ökonomie**“ is edited by Andreas Busch (University of Oxford), Stefan A. Schirm (University of Bochum) and Hubert Zimmermann (Cornell University).
